FIBRE BASED INSULATION MATERIALS

KARL SCHUPP AG

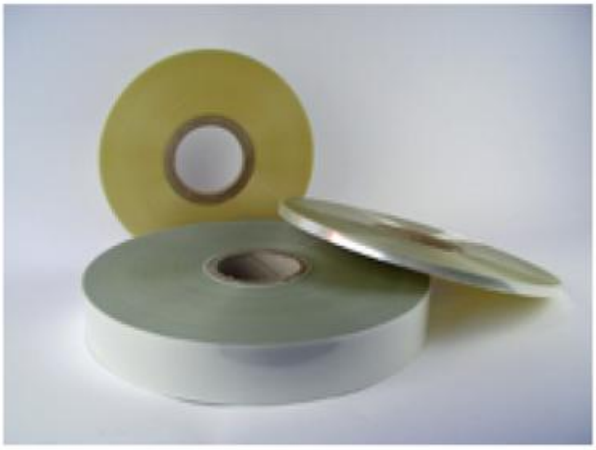

CONDUCT – PROTECT – INSULATE

We supply almost all electrically insulating films or laminates on rolls with customised widths.

Flexible electrical Insulations on rolls with individual widths

Rolls with individual widths cut to customer specifications

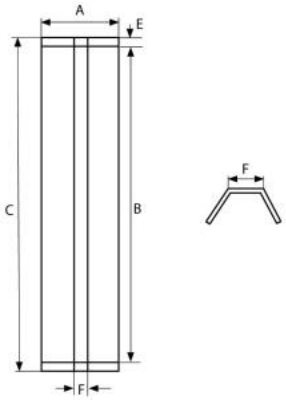

We offer narrow rolls for almost every application. This requires a high level of technical expertise and the use of state-of-the-art production machinery. According to your specifications, our suppliers manufacture rolls from 8 mm width for thicknesses up to 0.18 mm from 6 mm width for thicknesses from 0.19 mm

With a width tolerance of 0.1 mm, they process a wide variety of materials according to your requirements and specifications

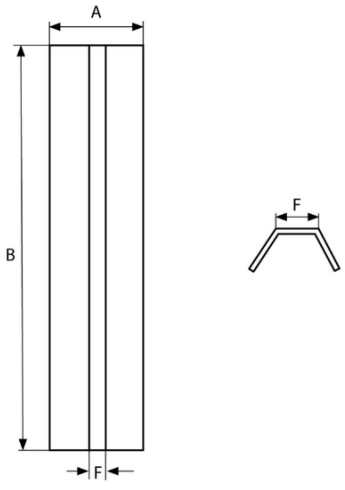

For the production of groove insulations, slot closures or intermediate insulations, we also offer the complete production of customised moulded parts. We would be pleased to provide you an offer. Please let us know the required dimensions using the form below.

DIMENSIONAL DRAWINGS FOR INSULATING MOLDED PARTS FOR ELECTRIC MOTORS
