TECHNICAL TAPES

Winding Tapes.

KARL SCHUPP AG

CONDUCT – PROTECT – INSULATE

The RT-A head wrapping tape is ideal for taping and binding in electric motor and transformer constructions. The artificial silk gives the tape a very high tensile strength. The tapes are largely resistant to oxidation, acids and bacteria and have a high, long-lasting temperature resistance.

Coil Winding RT-A Wrapping Tape

Specifications

Material:
Parallel threads made of artificial silk cord

Temperature class:
F (155°C)

Art. Nr.		Type	Thickness [mm]	Width [mm]	Coil at [m]
WBWA05	♦	RT-A 11	0,25	4.80	500
WBWA08	♦	RT-A 18	0,25	7.80	300
WBWA10	♦	RT-A 22	0,25	9.50	250

♦ ex stock, other widths on request
